INHALATION IN CONSUMPTION.

DRONOHITIS, LARYNCITIS, and other diseases of the Chest and Throat successfully treated by the Innatation and Constitutional treatment, as practiced at the "Stayvesant Medical Institute," New York city, Placess of the Heart, Liver, Female Complaints, Dyspepsia, Venereal Affections, and Chronic Diseases generally, will receive the attention of the Physicians, to whom such may have been especially entrusted.

The unprecedented success which has attended this method of treating diseases of the Lungs and Throat, has induced us to depart from our usual course, and variful of the Press, in order to bring it to the knowledge and the same processes on the consumptive. The doctrine of the incurability of Consumption has at length passed away. We have indubitable proofs in our possession, that Consumption in all its stages can be cared; in the first, by tubercular absorption; in the second, by the teansformation of unbercule into chalky and calcarous concretions; in the third by dealrices of scars. Those wedded to the past, may assert that even now Cunsumption is incurable; such are behind the age. To all, this great truth most be apparent, viz: that medicines inhilled in the form of Vapor or Powder directly into the Lungs, must be much more effectual than that taken into the Stomach, where the disease does not exist.

Vapor or Powder directly into the Lungs, must be much more effectual than that taken into the Stomach, where the disease does not exist.

The advantage of Inhalation in Consumption and Throst Diseases is, that modicine in the form of vapor and applied directly to the Lungs where the disease exists; the stomach is thus left free to sid in restoring, by administering to it healthy, life-giving food. There is no case so hopoless that Inhalation will not reach! The means, too, are brought within reach of all, the manner of administering the vapors being so simple, that the invalid is never required to leave home, where the hand of friendship and affection tends so much to aid the physician's efforts.

The Inhalang method is agoting, safe and speedy, and consists in the administration of medicines in such a manner that they are conveyed into the lungs in the form of vapor, and produce their action at the seat of the disease. In practical success is destined to revolutionize the medica world, and establish the entire curability of Consumption.

I carnestly appeal to the commens sense of all afflicted with lung diseases, to embrace at once the advantage of inhalation; and no longer apply medicines to the smadectd stomach. I claim for Inhalation a place among the priceless gifts nature and art that head? And as the only

gifte nature and art hath given us, that "our days may long in the land," and as the only ARK OF REFUGE FOR THE CONSUMPTIVE. After the second of the constant of the constant of the profession that have adopted inhalation, have found it efficacious in the highest degree, afresting the progress of the disease, and working wonders in many desperate cases, in verity, a triumph of our Art, over this felt do Aroyer of our species.

For the Complete Cure of Coughs, Colds,

This preparation is getting into use all over our country.

The numerous letters we receive from our various agents, informing us of ourse effected is their immediate neighborhoods, warrand us in saying it is one of the best, if not the very best Cough Medicine new before the public.—It almost invariably relieves and not unfrequently cures the very worst cases. When all other Cough preparations have failed, this has relieved the patient, as Druggists, dealers in Medicines, and Physicians can testify. Ask the Agent in your nearest town, what has been solling it for any length of time he will tell you it is the best medicine extant. Below we give a few extracts from letters we have received tanily regarding the virtues of this medicine.

Br. S. S. Oslin, of Knoxville, Gr., says.—I have been using your liverwort and Tar very extensively in my practice for three years past, and, it is with picasure I state my belief in its sujectionity over all other articles with which I am acquainted, for which it is recommended.

Messer, Fitzgerald & Beenners, writing from Waynesville, N. C., says:—The Liverwort and Tar is becoming dully more poputar in this country, and we think justly so. All who have reled it apeak in commendable terms of it, and say it is very been Schain in allowing the complaints or which its recommended.

CHERRY PECTORAL, COUGHS, COLDS, HOARSENESS,

BRONCHITIS, WHOOPING-COUGH CROUP, ASTHMA, AND CONSUMPTION. Cathartic Pills.

OPERATIVE by their powerful influence on the internal Viscora to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and by restoring thoir irregular action to health, correct, wherever they exist, such derangements as are the first cause of disease. An extensive trial of their virtues, by Professors, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanso, which the Agents below named are pleased to furnish to all inquiring.

which the Agents occur named are pleased to turnen to all inquiring.

Annexed we give Directions for their use in the complaints which they have been found to cure.

For Costingues.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of Piles, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be promptly relieved. under a costive habit of body. Hence it should be, as it can
be, promptly relieved.
For Dysyrama, which is sometimes the cause of Costiveness, and always uncomfortable, take mild doses—to stimulate the stomach and liver into a healthy action. They will
do it, and the heartburn, bodyburn, and soulburn of dyspepsis will rapidly disappear. When it has gone, don't forget
what cured you.
For a Foul Stomach, or Morbid inaction of the Bowels,
which produces general depression of the spirits and bad
heatth, take from four to eight Pills at first, and smaller
doses afterwards, until activity and strength is restored to the
system.

For Nervousness, Sick Headache, Nausea, Pain in the Stomach, Back, or Side, take from four to eight Pillson going to bed. If they do not operate anticiently, take more the next day until they do. Don't wear these and their hindred

stomach, hack, or Side, take from four to eight Fills on going to bed. If they do not operate amificiently, take more the next day until they do. Don't wear these and their hierard disorders because your stomach is foul.

For Scroutla, Errsipelas, and all discusses of the Skin, take the Pills freely and frequently, to keep the bowels open. The cruptions will generally soon begin to diminish and disappear. Many dreadful Ulcers and Sores have been bealed up by the purging and purifying effect of these Pills, and some disgusting diseases which seems to saturate the whole system have completely yielded to their influence, leaving the sufferor in perfect health. Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, alears, sores, and all or any of the unclean diseases of the akin, because your system wants cleansing.

To Prairy true Rilboon, they are the best medisons ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing elekness as by the remarkable cures which they are making everywhere.

Liver Compairst, Jaundice, and all Billious Affections arise from some derangement—sither torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitine the bile and render it until for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous trait of ovilis. Costiveness, or alternately costiveness and distribes, prevails—Peverish symptoms, langor, low spirils, weariness, restissmens, and melancholy with sometimes inability to sleep, and sometimes great drowniness; sometimes there is a sewere pain in the side; the skin and the white RESUMATISE, Goul, and all inflammatory Powers are rapidly cured by the purifying effects of these Pills upon the thood, and the stimulus which they afford to the vita: principle of Life. For these and all kindred complaints they should be taken in mild doses to move the bowels gently, but freely. As a Dranga Pill, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the surpose for which a Dinner Pill is employed. Prepared by
